

3K Fountain Circle with DMX control for decoration at trade fairs and events

## KEY FACTS:

Its diameter is 2,5 meters and the 24 single fountains can easily be adjusted to your individual needs und liking.

The integrated RGB LED system can also be controlled via DMX.

The basin made of stainless steel is divided into two half shells and can be set up fast and easily.

Particularly arranged nozzles and our integrated splash protection gauze provide a silent run and avoid splash water.

Therefore you can integrate the Fountain Circle into furniture and other exhibits without difficulty.

Pre-programmed shows can be played with a DMX player.
