

## WATERSLIDES

A big range of waterslides for various applications in the field of Exhibitions and as decorative element.  
Easy and fast installation and an outstanding price relationship.

## APPLICATIONS

### 2HE Waterslide stainless steel:

Water outlet on stainless steel .  
A located wall to lean-on is needed.  
The up to 2,5m high standard segments are plain,  
self-supporting and modular constructed.  
Can be used with labelling foil.

### 2HG Waterslide Glass:

Modular, frameless glass-surface for water draining.  
Designed for a height of 2,5 m and a width of 1 m per  
segment, which can be assembled seamlessly in length.

### 2HGI Waterslide inner glass:

Free-standing stele of stainless-steel.  
Between two sheets of glass a high quantity of water  
runs down along the inside.  
Standard segments of 1m width, a height of 2,5m and  
only 0,2 m in depth.  
With LED-RGB-lighting.  
Optimal for labelling and decoration.

### 2I Waterslide Foil:

Between two sheets of plastic arranged in tiles and  
available in various measurements the water flow runs  
downwards into a very small basin without splashing.  
Also as curved and framed version available.
