OUTDOOR  
USE

Easy to  
assemble  
and adaptable  
MODULAR  
PIPELINE  
BUILDING KIT

*MODULAR*

*FLEXIBLE*

OUTDOOR  
VALVE-CONTROLLED  
WATER SHOWS  
with fixed and  
movable nozzles

FLEXIBLE  
in length  
and height

ALL-IN ONE  
solutions

DYNAMIC WATER  
MATRIX SYSTEM  
variable and  
boundless extend

Our new developed  
event technology  
also stands firm  
under the most  
difficult environmental  
conditions e.g.  
saltwater

basin, river,  
lake and sea  
APPLICATIONS

Large outdoor  
ISLAND  
CONSTRUCTION  
for large basins,  
inland waters  
or sea

Compact, highly  
flexible water show  
installations for small  
basins

Our modular concept allow the adaptation to every water basin, river or lake as well as sea water application.

All-in one solutions like 3K Watercircle or 4M Watermatrix, can be individual arranged and available for Indoor and Outdoor use.

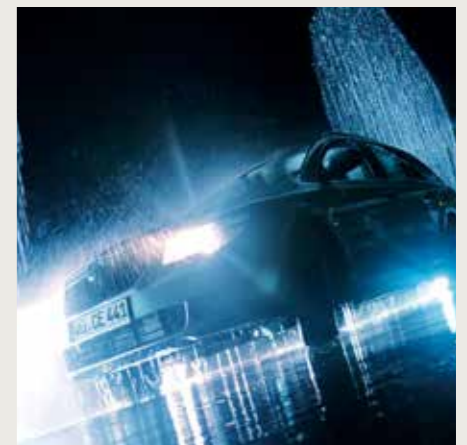

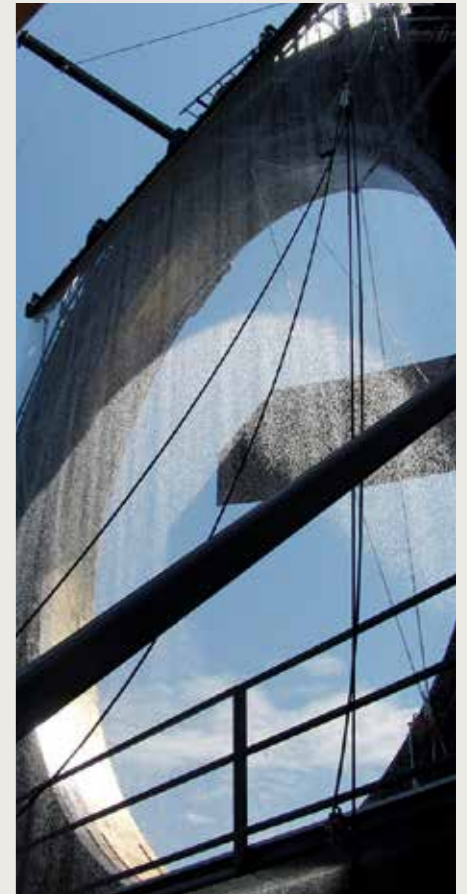

## ***WATER CURTAINS AND WATER SCREENS***

*Watershow.de makes you experience room and water in a new way.*

Thought out water show effects in ever new perspectives.

An aesthetic experience or a new way to transport information – our water curtains and water screens combined with artful lighting effects are your tools.

Complete solutions for all imaginable ambiances.

1A

***DELTA-NOZZLES***

Suitable for small basins or pools. Fan nozzles create a rectangular projection surface, spraying bottom-up. For very impressive video or laser projections. Only rear projection.

**RECTANGULAR WATER SURFACE**

1C  
1CT

## **HYDROSHIELD / WATERSHIELD** **HYDROSHIELD** from above

Outdoor projection screen. Forms an arch-shaped surface. Designed for high performance, remarkable heights and a great amount of water. Front or rear projection with video or laser.

For your multimedia show by the sea, at a lake, a riverside or next to a swimming pool. Unique is the 1T line, whereby it is possible to create a top down projection surfaces, e.g. beneath bridges.

REMARKABLE

2A  
2AC  
2B

***WATERCURTAIN / WATERSCREEN FOR EVENTS***  
***WATERSCREEN FOR CEILING INSTALLATION***  
***WATERCURTAIN MODULAR CURVED***

20 YEARS STATE OF THE ART. Easy to clean, 400 nozzles/m milled in a hard plastic plate, a high grade stainless steel structure and a big water quantity are the successful features of WATERSHOW.DE'S BESTSELLER.

A high amount of nozzles and water create an impressive waterfall – A BRILLIANT PROJECTION SURFACE WITH HEIGHTS UP TO 30 METER.

For indoor and outdoor use at events, exhibitions or for permanent installation in swimming pools.

2A and 2B are modular, being maintained from above and especially used free-hanging at events. 2AC is being maintained from below and best suitable for indoor ceiling installation.

LARGE AMOUNT OF WATER / EASY TO CLEAN

# 2G 48 WATERGRAPHIC TRUSS

ready to use in less than 75 min

# TOUR-SUITABLE

TOUR-SUITABLE GRAPHIC WATER CURTAIN, with ultra-short setup time thanks to our Truss system technology.

Main unit is an 760x550 heavy Truss in 1 m or 2 m segments, where the nozzle system, filter elements and the complete.

See our time set up experiment clip on YouTube.

FOR DETAILED INFORMATIONS PLEASE TAKE A LOOK INTO OUR 10TH ANNIVERSARY SPECIAL FOLDER WITH OUR UNIQUE SKILLS.

solution of an 21m long system

## ***FOUNTAINS AND WATERSHOWER***

### *20 years of experience and specialisation*

Watershow.de is an international specialist for unforgettable water shows:  
MANUFACTURING, TECHNICAL SUPPORT AND CREATING SHOW CONCEPTS.

Thought out water show effects in ever new perspectives.  
We develop, produce, install, sell and rent fascination with  
our individual and in each case unique water shows.

Our new developed event technology offers water show systems  
that resist most difficult environmental conditions.

## ***WE MAKE WATER UNFORGETTABLE***

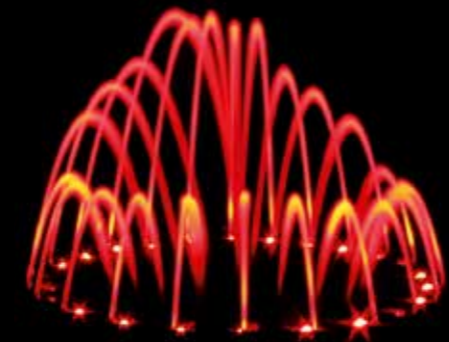

3K

**DMX FOUNTAIN CIRCLE**

controlled

Fountain Circle with 2,5m diameter and 24 individually, DMX-height-controlled fountains, with 10 Watt RGB-LED-Lights each. Particularly arranged nozzles and our integrated splash protection gauze provide a silent run and avoid splash water. Pre-programmed shows can be run with a DMX player.

4A

**WATERSHOW SYSTEM**

in basin with variable extend

To your requirements specially customized system. Each fountain individually integrable according to extend and form of the basin. As single nozzle or as full version with maximum equipping of a multimedia show. High or low coverage type.

As stage-fountain at an event, or as decorative framework for your exhibit at trade fairs.

4C

***OUTDOOR WATERSHOW***

large outdoor island construction

For large basins, inland waters or sea. Variable quantity of »islands« and distance in between.

Massive, reliable and saltwater-resistant. Composable for every kind of purpose by a quick-link system. Usable with individual nozzle equipment. Even without float, in shallow basins.

From fountain shows in the daytime up to multimedia shows by night.

**FLEXIBILITY AND CAPACITY**

4M

***WATERMATRIX***

variable and boundless extent

A »small« high-performance and dynamic Water Matrix system, expandable at will and incredibly flexible to set up with compact single pump modules. The system was constructed for indoor and outdoor use.

Thereby the maximum fountain height is easily adjustable to the local conditions up to 6m and a waterheight of 150 mm is needed only. The click on spotlights are single controlled 10W RGB submersible.

**POWERFUL DYNAMICS**

BREGENZ OPERA TURANDOT  
2015 / 2016 at Seebühne Bregenz

with our 4A water fountains and  
1C Hydroschild was shown as an  
impressive projection on this high  
dense water curtain using original  
lake constance water.

Bildmaterial: Bregenzer Festspiele GmbH

SKODA PRODUCT TRAINING  
MALLORCA

Evening water show during 4 weeks  
with our 4M Watermatrix System.

In the pool of the Puro Beach Club  
we installed 150 retractable fountains  
around the new Skoda Fabia.

BREGENZ OPERA  
On the Lake 2011 / 2012

With a watershow.de 2A Waterscreen,  
8m long and 12m high, for Umberto  
Giordano's artwork.  
André Chénier's last act, "The Death",  
was shown as an impressive projection  
on this high dense water curtain using  
original lake constance water.
